2. Question

In reviewing the documentation, I have a question regarding item number 1 under *Requirements for Local Programs to Receive Funding* on page 7. What is the public health model that must be engaged? Is there a link where I can view this information?

Answer:

CDC has an explanation of the public health model that can be found here:
<http://www.cdc.gov/violenceprevention/overview/publichealthapproach.html>

For this project, we are very interested in campuses that can create partnerships that will increase the likelihood of changes in campus climate and culture to

reduce sexual violence. Please let me know if you have any additional questions after reviewing the explanation.
