Opioid Overdose Reversals with Naloxone Reported to the North Carolina Harm Reduction Coalition, 8/1/2013-12/31/2017

9,632 community reversals reported*

*23 reversals in an unknown location in North Carolina and 139 reversals using NCHRC kits in other states reported to NCHRC

Source: North Carolina Harm Reduction Coalition (NCHRC), January 2018
Analysis by Injury Epidemiology and Surveillance Unit
Percent of Overdose Reversals* with 1, 2, or 3+ doses of Naloxone Administered, 10/1/2016-12/31/2017

Last month, 8.8% of reversals where dosage amount was reported (N=160) used 3 or more doses of naloxone.

*Percentage based on reversals with known dosage amount. Use caution when interpreting this data as a large percentage of each months’ reversals had unknown dosage amounts.
