Opioid Overdose Reversals with Naloxone Reported to the North Carolina Harm Reduction Coalition, 8/1/2013-11/30/2017

9,265 community reversals reported*

*21 reversals in an unknown location in North Carolina and 138 reversals using NCHRC kits in other states reported to NCHRC

Source: North Carolina Harm Reduction Coalition (NCHRC), December 2017
Analysis by Injury Epidemiology and Surveillance Unit
Last month, **12.7%** of reversals where dosage amount was reported (N=165) used **3 or more doses** of naloxone.

*Percentage based on reversals with known dosage amount. Use caution when interpreting this data as a large percentage of each months’ reversals had unknown dosage amounts.*
