Opioid Overdose Reversals with Naloxone Reported to the North Carolina Harm Reduction Coalition, 8/1/2013-10/31/2017

8,737 community reversals reported*

*21 reversals in an unknown location in North Carolina and 134 reversals using NCHRC kits in other states reported to NCHRC

Source: North Carolina Harm Reduction Coalition (NCHRC), November 2017
Analysis by Injury Epidemiology and Surveillance Unit
Percent of Overdose Reversals* with 1, 2, or 3+ doses of Naloxone Administered, 10/1/2016-10/31/2017

Last month, 7.2% of reversals where dosage amount was reported (N=110) used 3 or more doses of naloxone.

*Percentage based on reversals with known dosage amount. Use caution when interpreting this data as a large percentage of each months’ reversals had unknown dosage amounts.
