Opioid Overdose Reversals with Naloxone Reported to the North Carolina Harm Reduction Coalition, 8/1/2013-1/31/2018

10,028 community reversals reported*

*30 reversals in an unknown location in North Carolina and 141 reversals using NCHRC kits in other states reported to NCHRC

Source: North Carolina Harm Reduction Coalition (NCHRC), February 2018
Analysis by Injury Epidemiology and Surveillance Unit
Percent of Overdose Reversals* with 1, 2, or 3+ doses of Naloxone Administered, 10/1/2016-1/31/2018

Last month, 17.5% of reversals where dosage amount was reported (N=137) used 3 or more doses of naloxone.

*Percentage based on reversals with known dosage amount. Use caution when interpreting this data as a large percentage of each months’ reversals had unknown dosage amounts.
