Analysis by Injury Epidemiology and Surveillance Unit
Percent of Overdose Reversals* with 1, 2, or 3+ doses of Naloxone Administered, 10/1/2016-10/31/2018

Last month, 21% of reversals where dosage amount was reported (N=77) used 3 or more doses of naloxone.

*Percentage based on reversals with known dosage amount. Use caution when interpreting this data as a large percentage of each months’ reversals had unknown dosage amounts.
