Data Source: North Carolina State Center for Health Statistics, Vital Statistics Death Certificate Data.

Note: Counts by any mention of drug type are not mutually exclusive; if a death involved multiple drugs it could be listed in additional tables.

ICD-10 Codes: An underlying cause (COD1) of X40-X44 Accidental poisonings by drugs; X60-X64 Intentional self-poisoning by drugs; X85 Assault by drug poisoning; or Y10-Y14 Drug poisoning of undetermined intent, and a contributing cause (COD2-21) of T40.3 Methadone.

Version updates:

Previous versions of this table were not limited to deaths with an underlying cause (COD1) of a poisoning.

Previous versions of this table did not include NC residents deaths that occurred out of state for 2012-2015; this table includes NC resident deaths occurring in and out of state for all years.
